Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 2 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Specification

The disclosure is objected to because of the following informalities: Throughout applicant's disclosure (including claims), applicant's line numbers have inappropriate spacing from the body of the text. It is suggest that these line numbers be moved toward the left margin or deleted. Appropriate correction is required

Allowable Subject Matter

Claims 1-10 are allowed.

The following is a statement of reasons for the indication of allowable subject matter:

The prior art made of record does not disclose or suggest the combination of limitations as set forth in applicant's claims. In particular, the prior art does not disclose or suggest a masking hinge device comprising a first cavity to cover substantially one half of a mounted half hinge barrel, having flexible closure walls at each of a first and second end and a first cover panel extending from a first lengthwise edge of the first cavity and of sufficient size to cover an inboard side of the half hinge. A second cavity to cover substantially one half of the half hinge barrel, having a second cover panel extending from a first lengthwise edge of the second cavity to cover an outboard side of the half hinge, wherein the second cover panel having one or more relief portions of sufficient width and depth to cover screw-heads extending from the outboard side. An extending lip on each of the closure walls, each having a length, each extending substantially toward the opposite closure wall and the extending lip(s) in conjunction with the second cover panel forming a latching mechanism.

Art Unit: 3677

The cavities may be flexed toward each other and around the half hinge barrel, thereby allowing the masking hinge device to substantially cover and latch around the half hinge.

None of the other prior art references disclose or suggest the combination of limitations as cited above whether taken alone or used in combination thereof.

Conclusion

This application is in condition for allowance except for the following formal matters:

Applicant's disclosure is objected to for minor informalities cited under the Specification section of this Action.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
